S U M I T

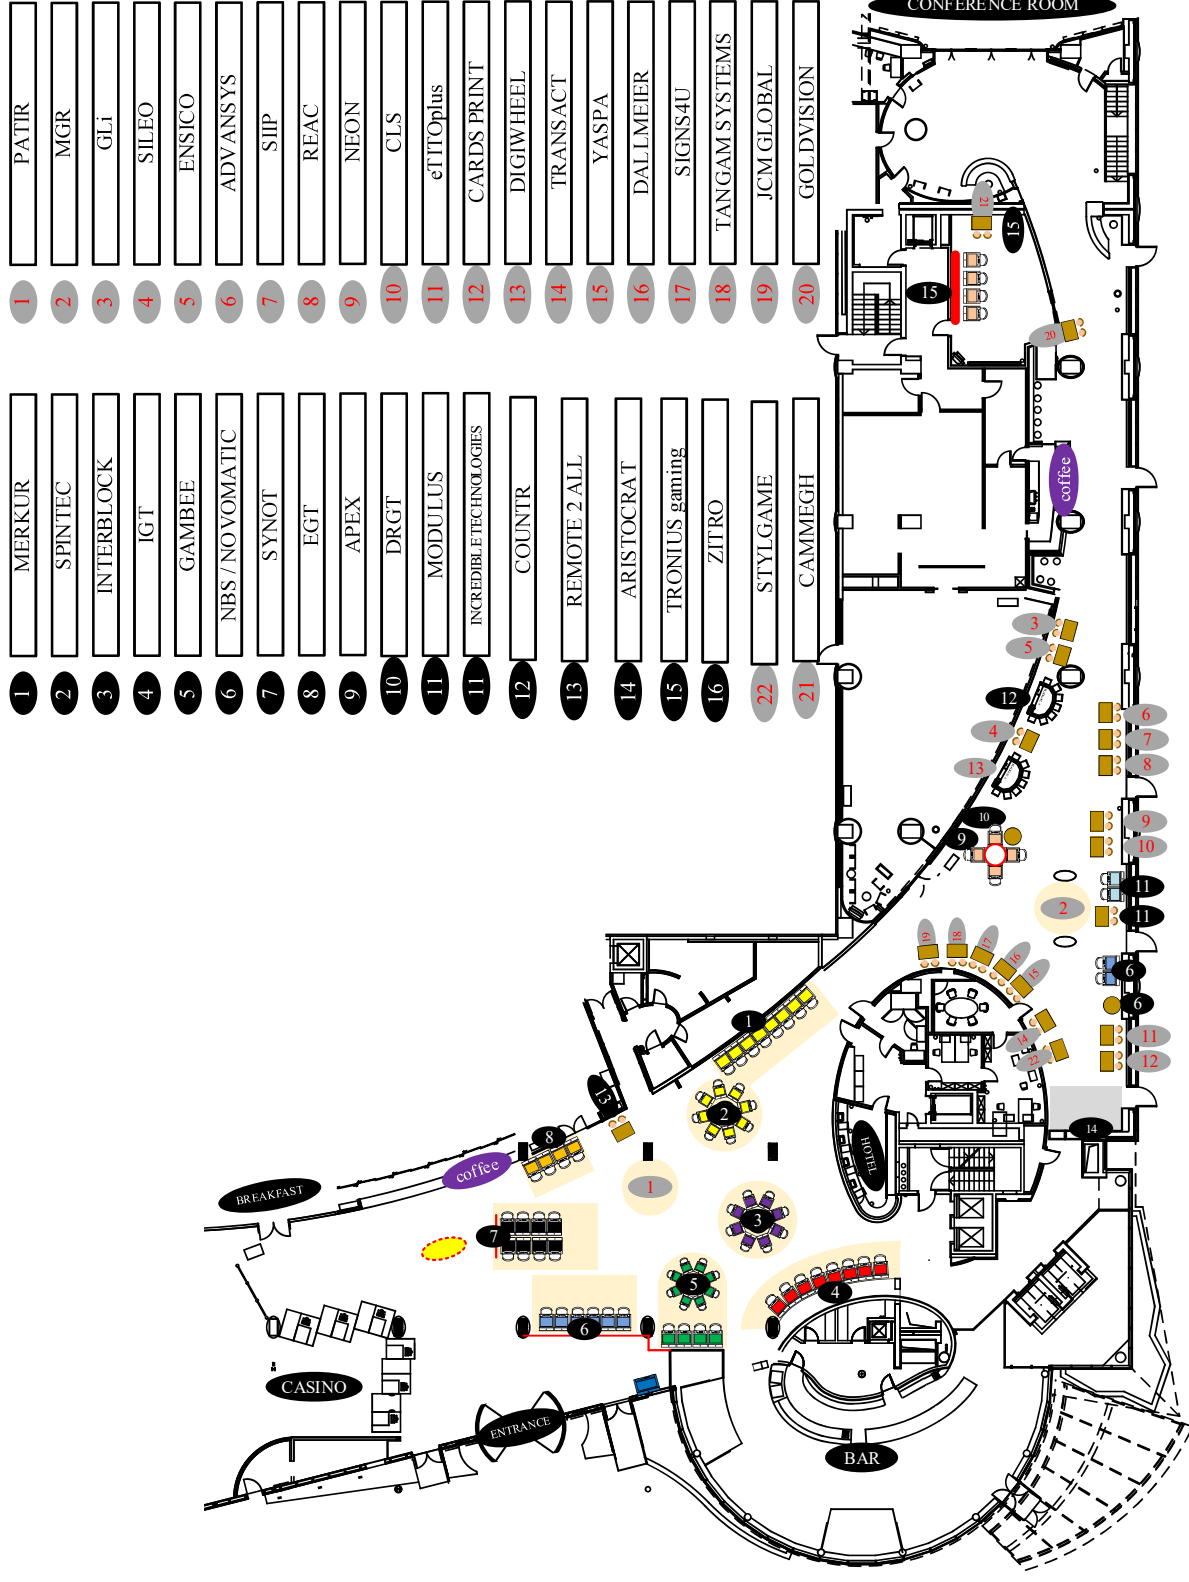

2025 edition - Nova Gorica

SPONSOR FLOOR LAYOUT

The area for sponsors is divided into two sections

- One area for Gold and Platinum Sponsors
- One area for Silver Sponsors (albeit we tried to keep all system sponsors in the same area, therefore some machine supplier (connected to systems) have equipment in this area as well)

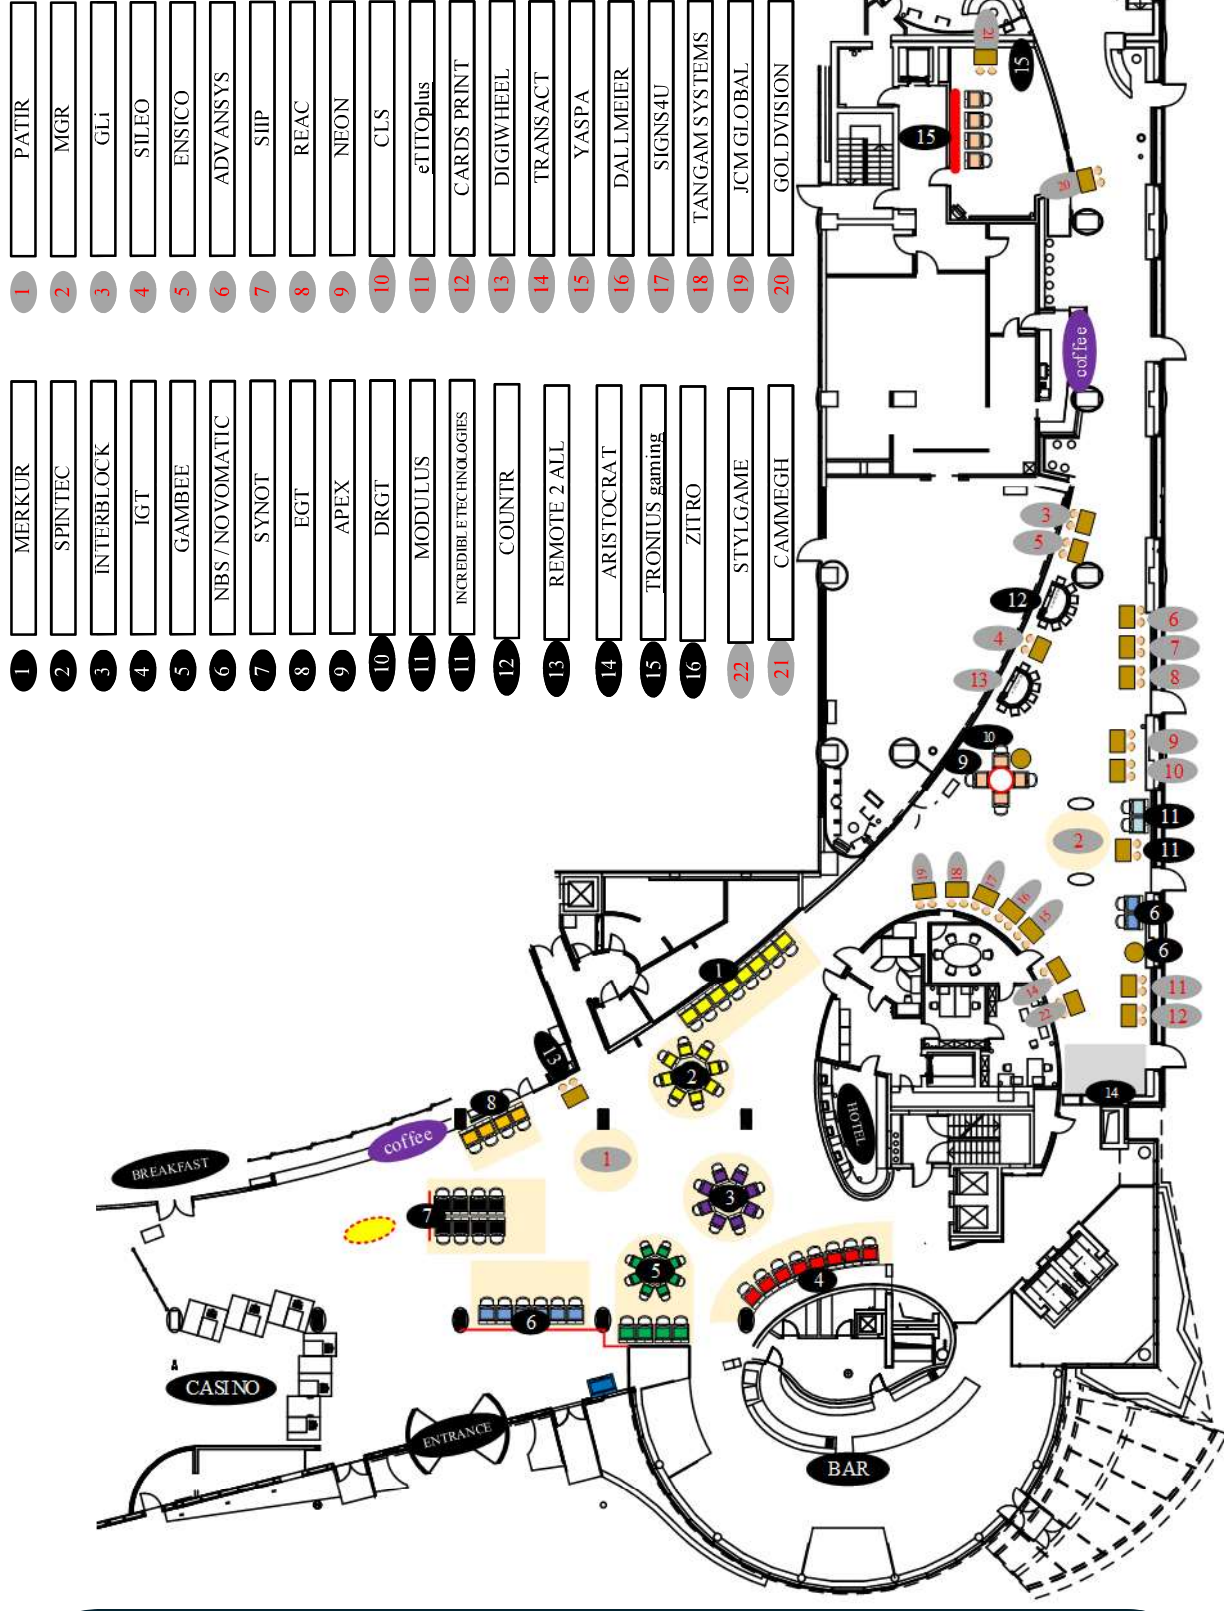

Both areas have coffee stations. This machines are self-service throughout the day, during coffee breaks there will be snacks in these areas as well.

The hotel will provide power to all stands. That's a standard power socket at the tables in the Silver area and extension cords to all machine areas.

The lobby of the hotel (where the Gold and Platinum Sponsors are) has a marble floor. Slot Suppliers are requested to put carpet under the electronic gaming equipment.

Backdrop behind the machines is allowed (for suppliers 5 and 6 is advised). Supplier 7 can use divider between machines and an endcap.

$$8 \text{ EGT} = 2,50 \times 4,00$$
